Seagreen® Liquid Iron

So Simple
 So Effective
 So Efficient!

Bring life back to
 lawns, turf and
 sports pitches

This product is revolutionising
 iron sulphate applications.

Rapid greening on lawns, turf
 and sports pitches.

Seagreen® Liquid Iron

Iron Sulphate in its most easy to use formulation yet.

A unique liquid formulation delivering all the benefits of Iron Sulphate application, user benefits and satisfaction:

- Instant blackening of moss
- Improves grass colour
- Liquid formulation, quick and easy to mix
- Quicker application times: pour and go
- Minimal spillage, less staining and corrosion
- More commercially efficient
- Compatible with a wide range of pesticides

Seagreen® Application Rates

Moss Blackening:

40L/Ha in 400-800L water
400ml/100m2 in 4-8L water

200ml/100m2 in 4-8L water
19.5% w/v Fe 42.5% w/v SO3
Delivered in 10L reusable containers

"Since we have been using Seagreen® Liquid Iron our Lawn Technicians treat more lawns per day and make less mess of the vans and equipment. A great step forward."

Thames Valley Lawn Care

"I never thought that changing from a powder to a liquid would make such a difference, well it has and I would not go back to the powders"

Lawn Care Technician from Lawn-Tech

Wikka

The wetting agent of choice

For extreme conditions tank mix Wikka with Seagreen® Liquid Iron

Wikka draws the iron into the moss and turf improving its mode and speed of action.

Wikka Application Rates

2L/Ha in 400-800L water
20ml/100m2 in 4-8L water

Delivered in 5L reusable containers
